Advanced Hardware Exchange Program

Equipment Replacement (AE to customer)

Target ship-date of replacement Product or Part is within five (5) business days of receipt of terms acceptance and address verification. Products and Parts shipped to the customer by AE shall be freight prepaid by AE. AE will provide customer a pre-paid shipping label with exchange hardware unless otherwise stated. Responsibility for loss or damage of replacement equipment shipped to customer, during shipping, shall be on AlsoEnergy. AlsoEnergy shall not be responsible for any handling fees, import duties or tariffs, or delays as a result of customs. Upon shipment of Advanced Exchange Product or Part, AE will generate an Advanced Replacement Sales Order.

If customer chooses to opt-out of the Advanced Exchange program, replacement Product or Part will be shipped to customer to customer upon receipt of returned Product or Part and completion of warranty assessment.

Exchange Equipment Returns (Customer to AE)

No Product or Part can be returned without a valid Return Material Authorization (RMA) Number. Failure to obtain a RMA will result in the customer bearing all costs associated with the shipping and handling of the returned product. The Product or Part being exchanged must be returned to a AlsoEnergy specified receiving location with the RMA number clearly indicated on the outside of the shipping package, or included in the, "Attention to", portion of the address. Removal, shipment to AlsoEnergy, shipping insurance and loss or damage of the Product or Part to be exchanged, as well as the installation and configuration of the replacement Product or Part is the responsibility of the customer.

The customer is responsible for the full retail value of any Product or Part not returned under the Advanced Exchange Hardware Support Program, unless stated otherwise in writing by AE. Customer will have fourteen (14) business days after receipt of the replacement Product or Part, to return the part to AE to receive a credit against the existing Sales Order. Any Product or Part not received within fourteen (14) business days will not be eligible for a credit. In the event the Product or Part to be returned is not received by AlsoEnergy within fourteen (14) business days after a replacement Product or Part has been received, the warranty on the Product or Part is void, and the existing Sales Order will be invoiced as due and payable to AE.

AE Reserves the right to choose, at its sole discretion, to exchange the whole unit or failing part with new or refurbished parts and may at its discretion supply units that are aesthetically different. AE reserves the right, at its sole discretion, to refund the purchase price instead of replacing the Product. For purposes of this limited Warranty, "refurbished" means a product or part that has been returned to its original specifications. All returned Parts or Products become the property of AE.

Warranty Evaluation

Once equipment to be exchanged has been received by AlsoEnergy by the customer, the Product or Part will be tested and warranty coverage assessed. Credits will be issued against Advanced Exchange Sales Order pursuant to warranty eligibility. Warranty will be void on Parts or Products listed on unpaid Advance Exchange invoices.

Customer Satisfaction

If a customer unit fails within the first 90 days after installation, an AE Technical Services Representative, after discussing the nature of the problem and if the problem cannot be resolved, will assign a Return Material Authorization (RMA) number and replace the unit with a new unit.
